5. Elevator pitch

Please create a short text to describe your project/submission to describe it and convince jury and voters why they should select it. (max 50 words)

The Archroma Peru team is working on the implementation of the 5S -SOLED program (Japanese Program), in a school named "Ramiro Priale" that is located on a property adjacent to our company.

We are working and involving the director, teachers, parents, and students of the school in the adoption of this program and thus be able to reach their homes.

6. Describe how your project and its impact help achieving the category-specific criteria (Max. 1000 words)

The Archroma Peru team has the 5S-SOLED Program implemented on our Site, and as part of the Management system of this program, it has to be disseminated to customers, suppliers, Institutions, and the Community, which is coming. doing every year.

One of the main stakeholders where we have worked on this process of implementing the 5S-SOLED program is the Ramiro Priale School located in the area near our company.

The implementation process began with the presentation of the 5S SOLED program to the Educational Authorities, to obtain their acceptance and thus start the Implementation program.

After the acceptance and very good reception, a first visit to the school was made, in order to obtain the Base Line and with it start the Implementation.

The first part of the implementation is the Awareness process of the program, for which several strategies were applied:

- 5S – SOLED Training Program for teachers, parents, and students, carried out by the Archroma Peru team.
- Guided visits to our Site to identify the implementation of the program and its benefits.
- Guided visit to the Jose Galvez School (School that has implemented the 5S – SOLED program and It is a good reference for teachers).
- Training carried out by teachers from the Jose Galvez school at the Ramiro Priale school facilities.

We have currently completed the Training and Cultural Formation process with the directors, teachers, and students of the Ramiro Priale School and we are preparing the second part of the Implementation for the year 2023.

By helping to implement the 5S - SOLED program at Colegio Ramiro Priale, we are contributing to the education and training of teachers and students, who will take advantage of this knowledge in their family and professional life.

7. Describe how your project supports “The Archroma Way to a Sustainable World: Safe, efficient, enhanced, it’s our nature” (Max. 1000 words)

- The 5S - SOLED program helps to have a culture of Safety and Efficiency
- The 5S - SOLED program provides the necessary knowledge to Select, Order, Clean, and Standardize within the Educational Facilities and in their Homes.
- The 5S - SOLED program helps in Cultural Training through the Habits that are generated.

8. Describe how your project demonstrates the company mindset “Everybody sells!” supported by our ACTS (Max. 1000 words)

5S- SOLED fits with two of our cultural pillars

The 5S- SOLED program fits with two of our cultural pillars

The basis of this program is collaboration and teamwork.

We train our clients so that they are more efficient and can improve their processes with our products.

By having our things in order, clean, and standardized we generate speed and simplicity
