~~Ecolab~~took the global initiative to stop the usage of fluorinated chemicals. They were tasked to find the best product out there to be used specifically for healthcare garments,  Archroma helped them achieved this task and after trials with other 18 products we outperformed all of them in chemistry and service.

6. **Describe how your project and its impact help achieving the category-specific criteria** (Max. 1000 words) We guided ▓▓▓▓▓ in the best chemistry to substitute their fluorinated-chemical applications. By reaching the required performance ▓▓▓▓▓ was able to introduce a new formulation in many of their customers and remove the use of PFAS containing chemicals.

7. **Describe how your project supports "The Archroma Way to a Sustainable World: Safe, efficient, enhanced, it's our nature"** (Max. 1000 words) Safe and more environmentally friendly chemistry.

8. **Describe how your project demonstrates the company mindset "Everybody sells!" supported by our ACTS** (Max. 1000 words) All internal stakeholders were 100% involved and taking initiatives to make sure we had all the information in product stewardship, good communication on production with the Head of CoC and Supply Chain making sure the we had enough stock in our inventory to supply the demand.
